Project Focus

To ensure the success of the industry's **shift to Value Based Care**

Transform out of Controlled Chaos:

Develop **rapid multi-stakeholder** process to identify, exercise and implement initial use cases.

Collaboration:

Minimize the development and deployment of **unique solutions**.
Promote industry wide **standards** and adoption.

Success Measures:

Use of FHIR®, implementation guides and pilot projects.

Kristen Valdes,
Founder and CEO, b.well Connected Health

b.well® Connected Health

Founded in 2015, b.well Connected Health is a leading innovative technology company, helping transform overly complex, fragmented healthcare into a simple, on-demand experience that puts patients at the center of the equation — and wins their hearts and loyalty.

As a leading voice in consumer-directed interoperability, b.well's digital transformation platform seamlessly combines a consumer's comprehensive data set bi-directionally with core systems to unlock a full 360° view and deliver timely and relevant personalized communications, down to an $n = 1$.

Clients include MedStar Health, ThedaCare, UnityPoint Health, Walgreens, and other leading health systems, plans and employers.

The Digital Platform Architecture for the Future of Healthcare

InterSystems, a leading interoperability vendor, provides Clean, Healthy Data for Innovation, Insight, and Better Care

Technical: Our technology supports the FHIR server, security layer, Interoperability, CDS Hooks, CQL, consent and analytics. Member 360-platform.

Use Cases

PDeX: PlanNet, PDeX:Pharmacy, PDeX (Payer to Payer), DEQM, Prior Authorization (3 Implementation Guides)

Duncan Weatherston,
Co-Founder & CEO, Smile CDR

#ChooseOpenStandards

#BetterGlobalHealth

Who is Smile CDR?

Smile CDR is a health information technology company. Globally, we support the healthcare industry by providing a **proven** data and integration platform. Our solutions help organizations adopt open standards that **support an intelligent flow of data, boost efficiency, reduce costs and generate new value.**

Our Customers

We are preparing healthcare **providers, payers, researchers and life sciences organizations** for a connected future beyond legacy systems that adds new value through intelligent use of information and ultimately delivers better patient outcomes.

Our Offering

Our enterprise-grade open framework enables collaboration. It allows organizations to **ingest, transform, store, enrich, analyze, aggregate and meaningfully share the health information** that powers digital transformation.
